ASUR's management believes that the lower passenger traffic numbers to Cancun and Cozumel during the period were largely the result of the reduction in available accommodation caused by Hurricane Wilma, which struck the region in October 2005 and caused widespread damage to the hotel infrastructure in the region.

Cancun's Municipal Tourism Authority estimates that of the 27,484 rooms available in Cancun prior to the hurricane, 21,735 or 79.1% were in operation as of May 31, 2006.

Quintana Roo's Tourism authorities estimate that there were 3,502 hotel rooms in operation in Cozumel as May 31, 2006, representing 93.9% of the approximately 3,730 hotel rooms available before the hurricanes.

At this time ASUR cannot estimate the impact that these events will have on passenger traffic for fiscal year 2006.
