The large rise in the year-over-year comparison at Cozumel airport was mainly due to sharply reduced passenger traffic in August 2006 as a result of damage inflicted by Hurricanes Emily and Wilma, which hit the Yucatan Peninsula in August and October 2005 respectively. Although there has since been a substantial recovery, passenger traffic at Cozumel airport continues to be affected by the impact of Hurricane Wilma.

Ongoing public demonstrations in the city of Oaxaca have adversely affected tourism in the area. The protests began in May 2006 as a teachers' strike which grew into more widespread unrest against the Oaxaca state government. The US State Department maintains an advisory regarding travel to Oaxaca but notes no events in the region since the start of 2007. At this time we are unable to predict whether or how the conflict will be resolved, or how the ongoing demonstrations will affect our operations.

During the month of August 2007 Hurricane Dean hit the Yucatan Peninsula affecting passenger traffic for Cancun, Cozumel and Merida airports, resulting in 176 cancelled flights.
